

### **In-Person Gatherings | COVID-19 Health Protocols and Practices**

The following precautionary practices are intended to address our weekly worship assemblies, but generally-speaking apply to all in-person campus gatherings as well. For the immediate future, we recommend that all individuals with an underlying at-risk health condition stay home and virtually attend services online.

#### **Sunday Morning Assemblies:**

- Assemblies will be for worship only; no classes or staffed nursery although parents may attend to their own child's need and disinfect the area afterwards
- Pews will be marked to encourage appropriate social distancing between individuals or family units of the same households during services
- Communion will utilize self-contained juice and cracker cups; offerings may be placed in a box located at the back of the auditorium
- Singing will be congregational but without the involvement of our praise team
- Non-contact greetings will be encouraged
- Virtual online worship will continue, particularly on behalf of those needing to maintain distance and caution about meeting in public areas

#### **General Building Cleaning and Utilization:**

- Areas will be cleaned between each service or event, high-contact surfaces disinfected regularly
- Members and guests will be asked to put on a face covering before entering the building (except for young children)
- Coffee station or drinking fountains will not be accessible, although bottled water will be available
- Hand sanitizers will be placed in high-contact locations throughout the building
- The playground will remain closed, although children can play in the grassy area just outside Family Hall given parental permission and direct supervision
